Product Package Design

Color Pallette

#880000

The deep red border frames the design beautifully, making the gold and yellow elements pop, just like how traditional Maharashtrian sweets are packaged in rich tones.

#FFF5E1

This background gives a traditional, elegant, and festive look, similar to Indian wedding cards or premium sweet boxes.

#FFD700

It ensures that Puran Poli remains the hero of the design, and the warm tone evokes freshness and a homemade feel.

D4AF37

The gold foil effect enhances the traditional appeal, making it look like a high-quality, special-occasion sweet box rather than a standard package.
